

California OES Weather Threat Briefing

Saturday, August 29, 2020
9:00 AM PDT

- **Day 1 (Saturday):** Somewhat cooler temperatures will lead to reduced heat concerns today. Fire weather concerns will remain elevated due to continued dry conditions.

National Weather Service
*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

08/28/20 - 09/03/20

Saturday-Monday

- Somewhat cooler temperatures will lead to decreased heat concerns
- Increased northeasterly winds across the state Sunday into Monday, combined with continued dry conditions, will lead to elevated fire weather concerns
 - Locally critical fire weather conditions are possible, including in the mountains of Del Norte and Humboldt counties
- Isolated showers and thunderstorms are possible across interior portions of Southern Region
- Reduced air quality remains an issue due to the extensive smoke being produced by the numerous wildfires across the state

Tuesday-Friday

- Warming temperatures will lead to moderate heat concerns across Inland and Southern Regions
 - High heat-related health concerns could develop in some locations by Thursday and Friday
- Dry weather is generally expected to continue statewide
- Elevated fire weather concerns will likely persist statewide due to warm temperatures, low humidity, and occasionally gusty conditions
- Reduced air quality will likely remain an issue due to the extensive smoke being produced by the numerous wildfires across the state
